I am an Information Technology graduate with a CGPA of 9.15, specializing in AI-driven analytics, machine learning, AI automation, backend systems, data science solutions, and demonstrated leadership by organizing large-scale technical events while coordinating with teams.

EDUCATION

Bachelor of Engineering in Information Technology <i>Sardar Vallabhbhai Patel Institute Of Technology, VASAD</i>	Aug 2022 - Jun 2026 Vasad, Gujarat, India
Higher Secondary School (GSEB) <i>Parth School of Science and Competition</i>	Apr 2020 - May 2022 Vadodara, Gujarat, India

SKILLS

- **Programming language :** Python, SQL
- **Technical skills :** Data Science, Data Analysis and Visualization, ML, Generative AI, Software Engineering, Business Analytics, EDA, RAG Pipelines, AI Automations, n8n, Prompt Engineering
- **Libraries and Framework :** Flask, Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, Django, LangChain

EXPERIENCE

Gujarat Alkalies and Chemicals Ltd. (GACL) IT Intern Vadodara, Gujarat	Feb 2026 – May 2026
• Executing SQL-based data analysis tasks while developing an AI-powered CFO automation software platform that integrates financial analytics data, delivering a 6-month predictive revenue forecast to support data-guided business decisions. • Collaborating in an Agile development environment with continuous mentor guidance, implementing backend analytics workflows and automated financial insight generation that reduces manual anomaly detection time by up to 80%.	

PROJECTS

AI Personal Agent & Automation System GitHub	Aug 2026 - Present
Tech Stack: n8n, Google Gemini, PostgreSQL, Slack, Google APIs, Cloudflare, Docker • Engineered a self-hosted AI agent using n8n and Google Gemini with PostgreSQL persistent memory, integrating Slack as the conversational interface and modular tools for web search, email, calendar, expenses, notes, and task management. • Developed an AI-powered automation system capable of executing multi-step actions through natural-language commands, with persistent data handling and secure external access via Cloudflare Tunnel and a custom domain.	
AI-CFO Automation Software Platform GitHub	Feb 2026 - May 2026
Tech Stack: Django, Next.js, TypeScript, Supabase (PostgreSQL), Google Gemini API, Upstash Vector, Clerk Authentication and Scikit-learn • Developing a multi-tenant AI-driven financial decision intelligence software platform that automates financial analysis, forecasting, and anomaly detection to reduce manual reporting effort and improve business decision-making by 40%. • Implements KPI analytics, revenue forecasting using Prophet, and Isolation Forest anomaly detection to identify unusual financial patterns and generate prescriptive insights across key financial metrics. • Designed as a scalable multi-tenant SaaS system with AI-directed financial query support using RAG pipelines and automated generation of P and L, cash flow, and balance sheet reports for real-time financial visibility that can reduce manual financial analysis time by ~70–80%.	
HEALTHVITALS-AI (AI-Powered Healthcare Platform) GitHub Live Demo (Play Store)	Sep 2024 - Nov 2025
Tech Stack: React-Native, Node.js + Express, Google Gemini API, Appwrite, and Clerk Authentication • Architected an AI-powered healthcare platform funded by a ₹50,000 SSIP Grant, delivering Predictive Analytics, AI Symptom Scanning, Calorie Tracking, Daily Goals, and a production-ready mobile app. • Led backend, Software architecture design, AI Automation and API integrations, and database engineering, achieving health assessment efficiency by 70% through optimized workflows.	

ACHIEVEMENTS

• Secured a Rs.50,000/- Grant for HEALTHVITALS-AI under the Student Startup Innovation and Program (SSIP), Gujarat.	Jun 2025
• Won MECIA HACKS 2.0 (24-Hours) Hackathon under Software category with project HealthVitals-AI competing against over 100 teams.	Sep 2024
• Participated in an International Level Hackathon, HACKBANGALORE organized by Angel Hacks at Bengaluru and were selected amongst the top 30 Teams.	May 2024

CERTIFICATIONS

• Google IT Automation With Python Professional Certification Link	Jun 2024
• Google IT Support Professional Certification Link	Feb 2024

LEADERSHIP AND INITIATIVE

• Co-Headed the 50-day BUZZTECH startup event at SVIT VASAD, spearheading operational planning and participant workflows with end-to-end execution for 25+ teams.	Sep 2025 - Nov 2025
• Co-Headed the IPL Auction Event at Prakarsh'25 with 150+ participants, engineered a full software solution managing 200+ players across multiple teams, automating stats, base price, and past performance tracking, team evaluation system that managed teams and players efficiently.	Feb 2025
