Final-year Information Technology student (CGPA 9.0) specializing in AI-driven analytics, machine learning, data science solutions and backend systems development. Demonstrated leadership by organizing large-scale technical initiatives and coordinating cross-functional teams.

EDUCATION

Bachelor of Engineering in Information & Technology

Sardar Vallabhbhai Patel Institute Of Technology, VASAD CGPA: 9.00

Aug 2022 - Jun 2026

Vasad, Gujarat, India

Higher Secondary School (GSEB)

Parth School of Science & Competition

Apr 2020 - May 2022

Vadodara, Gujarat, India

SKILLS

- **Programming :** Python, SQL
- **Tech Skills :** Data Science, Data Analysis & Visualization, ML, Generative AI, Software Engineering, Git, Business Analytics, EDA, RAG Pipelines, AI Automations, Prompt Engineering
- **Libraries & Framework :** Flask, Scikit-Learn, NumPy, Pandas, Matplotlib & Seaborn, Django, LangChain, Crew AI

EXPERIENCE

Gujarat Alkalies and Chemicals Ltd. (GACL) | IT Intern | Vadodara, Gujarat

Feb 2026 – Present

- Executing SQL-based data analysis and enterprise reporting tasks while developing an AI-powered CFO automation software platform that integrates financial analytics, forecasting, and anomaly detection to support data-driven business decisions.
- Collaborating in an Agile development environment with continuous mentor guidance, implementing backend analytics workflows and automated financial insight generation.

PROJECTS

HEALTHVITALS-AI (AI-Powered Healthcare Platform) [Link](#) | [Demo](#)

Sep 2024 - Nov 2025

Tech Stack: React-Native, Node.js + Express, Google Gemini API, Appwrite, & Clerk Authentication

- Architected an AI-powered healthcare platform funded by a **₹50,000 SSIP Grant**, delivering Predictive Analytics, AI Symptom Scanning, Calorie Tracking, Daily Goals, and a production-ready Mobile app.
- Led backend, Software architecture designing, AI Automation & API integrations, and database engineering, achieving health assessment efficiency by 70% through optimized workflows.

AI-CFO Automation Software Platform [Link](#)

Tech Stack: Django, Next.js, TypeScript, Supabase (PostgreSQL), Google Gemini API, Upstash Vector, Clerk Authentication & Scikit-Learn

- Developing an AI-driven financial decision intelligence platform that automates financial analysis, forecasting, and anomaly detection to reduce manual reporting effort and improve business decision-making.
- Implements KPI analytics, revenue forecasting using Prophet, and Isolation Forest anomaly detection to identify unusual financial patterns and generate prescriptive insights across key financial metrics.
- Designed as a scalable multi-tenant SaaS system with AI-powered financial query support using RAG pipelines and automated generation of P&L, cash flow, and balance-sheet reports for real-time financial visibility that can reduce manual financial analysis time by ~60–70%

Cricket Auction Management System [Link](#)

Tech Stack: Flask, JavaScript, & Supabase (PostgreSQL)

- Designed and migrated a live auction platform from JSON to SQL Database with modular Flask architecture, enabling real-time bidding, rule validation, and multi-user access, reducing data inconsistency and manual errors by 95%.
- Built analytics dashboards and squad-validation logic, improving team decision accuracy by 90%+ and reducing auction processing time by 70% during live events.

ACHIEVEMENTS

- Secured a **Rs.50,000/- Grant** for HEALTHVITALS-AI under the **Student Startup Innovation & Program (SSIP) Gujarat**. Jun 2025
- **Won MECIA HACKS 2.0 (24-Hours) Hackathon** under Software category with project HealthVitals-AI Sep 2024 competing against over 100 teams.
- Participated in an **International Level Hackathon, HACKBANGLORE** organized by **Angel Hacks** at May 2024 Bengaluru and were selected amongst the top 30 Teams.

CERTIFICATIONS

- Google IT Automation With Python Professional Certification [Link](#) Jun 2024
- Google IT Support Professional Certification [Link](#) Feb 2024

LEADERSHIP & INITIATIVE

- **Co-Headed the 50-day BUZZTECH startup event** at SVIT VASAD, spearheading operational planning and participant workflows with end-to-end execution for **25+ teams**. Sep 2025 - Nov 2025
- **Co-Headed the IPL Auction Event at Prakarsh'25** with 150+ participants, engineered a full software solution managing 200+ players across multiple teams, automating stats, base price, and past performance tracking, team evaluation that managed teams & players efficiently. Feb 2025
